Haukkavuori, Oravivuori and Vaarunvuoret**

*Experience the magic of trails and come back  
refreshed and invigorated*

9,5 km (intermediate, 3-4 h), 14,5 km (intermediate, 7 h)

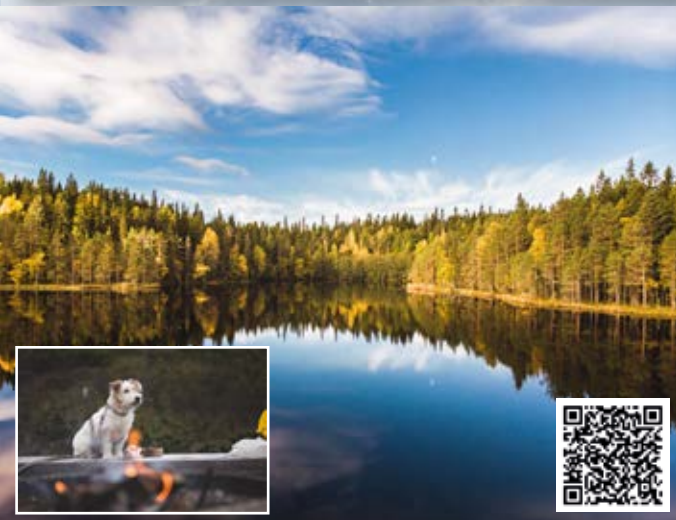

## The Haukka Circuit

This circular walk takes you into the heart of Korpilahti's enchanting countryside. The route takes you down evocative dirt tracks, shady forest paths, and over rocks. It starts from Korpilahti marina, takes you over the footbridge, past Alkio College, and onwards to the village of Hyrkkölä.

After skirting Pirttilahti village, you will climb up a steep, rocky path to the top of Haukkavuori to be greeted with awe-inspiring views over Lake Päijänne spread out beneath you. The route carries on from the top of Haukkavuori and takes you down towards the headland at Kiviönniemi. At the halfway point you can choose whether to carry on to the lean-to shelter at Kiviönniemi or turn back towards centre of Korpilahti.

**Start:** Korpilahti harbour. Use the QR code to load a trailmap.

4 km (easy, 2-3 h)

## Vaarunvuoret Nature Trail

In and around these ancient hills are various national conservation projects that cater for woodlands, wetlands, lakeshores and old-growth forests. Here you can find quiet moss-covered forests and boarded paths on the fringes by Lake Särkijärvi. At the turning point of the trail there are the cliffs at Vaarunjyrkkä, from where there are more views out over lake Päijänne.

Korospohja landing stage is on Lake Päijänne and can also be reached by boat. The campfire place and landing stage at Korospohja are connected by a route. The route is steep and quite challenging because the difference in altitude between the shore and campfire area is about 100 m in the space of a kilometre.

**Start:** from the E63 (route 9) in Korpilahti, turn to Joutsa and Lühanka (route 610). After about 14 km you will find the Vaarunvuoret parking area on the right. Use the QR code to see a map.

2,2 km (intermediate, 1-2 h)

## Oravivuori Nature Trail

Oravivuori is one of the triangulation points on the UNESCO world heritage-listed Struve Geodetic Arc. At the summit there is a viewing tower with information explaining about how Oravivuori's Puolakka triangulation point helped yield the first accurate measurement of a meridian, and more on the history of maps in Finland. A place you must experience yourself!

Wooden steps, boarded paths, and benches for taking breaks have been built along the trail. From the tower at the top, the views over Lake Päijänne are breathtaking throughout the year!

**Location:** Oravivuori car park is about 10 km from the main road and can be reached from two points on the E63 (route 9) – both roads are signposted.
